## Step 3 - Verify Setting

To verify that Testnets have been enabled, we need to go partially through the Account Creation process.

Home -> Add Account -> Create Account

Once in the “Account Type” screen, you should see the Jungle Testnet at the top of the list.

If you have any additional questions, please reach out via our [Support Portal](#) or at [support@greymass.com](mailto:support@greymass.com).
